EFFICIENT JUNIOR DEVELOPER WITH INTERPERSONAL STRENGTHS

- BCIT Computer Systems Technology Diploma graduate (2024) with hands-on experience developing applications across academic practicums and a professional internship.
- Collaborative team player with proven ability to work effectively in cross-functional teams, delivering results in both agile and structured development environments.
- Demonstrates strong time-management and prioritization skills, consistently meeting deadlines in high-volume academic and professional settings.
- Proficient in data structures, algorithms, and object-oriented design across multiple programming languages spanning front-end and back-end development.

SKILLS

Languages: C++, C, C#, Python, Java, JavaScript, TypeScript, HTML, CSS, SQL

Frameworks and Libraries: React, React Native, .NET, GSAP, HeroUI

Tools and Platforms: Git/GitHub, WordPress, PostHog, Hugging Face, DigitalOcean, REST APIs

Operating Systems: Windows, Linux (Ubuntu), macOS

EDUCATION

Computer Systems Technology Diploma (Bachelors equivalent) | BCIT | Burnaby, BC May 2024

- Graduated with Distinction | Academic Average: 86%
- Relevant Coursework: Web Development, Relational Database Systems, Internet Software Architecture.

PROFESSIONAL EXPERIENCE

Web Developer (Internship) | Alpha Ministries Canada | New Westminster, BC June – August 2025

- Revamped Guest Page UI with React, TypeScript, HeroUI components, and GSAP animations, substantially improving engagement and visual polish.
- Integrated PostHog analytics to monitor performance and user behavior that guided future feature decisions.
- Debugged and optimized front-end and back-end code across multiple websites, cutting down recurring errors and improving stability.
- Refactored WordPress layouts to improve navigation and content accessibility.

Eagle Eyes Search (Practicum) | BCIT | Burnaby, BC

April – May 2024

- Integrated backend and frontend for photo uploads using RESTful GET/POST methods, and developed dynamic search results with JavaScript and HTML to enhance usability.
- Designed prototypes and conducted feasibility testing to validate client requirements and guide implementation decisions.

Love Your Planet (Practicum) | BCIT | Burnaby, BC

Jan – April 2024

- Resolved critical bugs and optimized performance in a React Native mobile application.
- Collaborated within a 4-member team using the waterfall methodology to deliver project milestones on time.

ACADEMIC PROJECTS

Positivity Chatbot | BCIT | Burnaby, BC

April 2024

- Trained and deployed a language model using Hugging Face, hosted on DigitalOcean.
- Built a REST API to integrate the model, enabling communication between users and the system.
- Implemented front-end features with HTML, CSS, and JavaScript to send and receive messages via API calls.

Employee Management System | BCIT | Burnaby, BC

April 2024

- Developed a CRUD-based Employee Management System using C#, .NET, and Git, creating user interfaces to display employee data and enabling managers to create, update, and delete records.
- Simulated a multi-role, multi-division team to mirror real-world organizational structures and collaborative workflows.

VOLUNTEER EXPERIENCE

Junior Youth Leader | Revive City Church | Burnaby, BC

Sept 2022

- Supported youth leaders in planning and facilitating weekly youth programs and events.
- Mentored and engaged with youth to provide spiritual guidance and personal support.
- Encouraged and motivated peers and youth participants to actively engage in activities and discussions.
